# Connecting to the NMEDW SQL Azure Database

Start SQL Server Management Studio 2008 R2 or above and enter the following information:

- Server name: ld7gipk2bf.database.windows.net
- Login: EDWSQL
- Password: SQLisFun2Learn!

Then, click the "Options >>" button.   On the "Connection Properties" tab, enter the following:

- Connect to database: NMEDW

Finally, click "Connect."
